— Care and Rehabilitation of the Geriatric Patient, 1132–1158
— Emotional Basis of Illness. III. Man —The Mature Years and Beyond, 844–909
— Osteoporosis, 115–168
SYNDROMES:
— a deceptive syndrome—diphenylhydantoin neurotoxicity, 1102
— carcinoid: *see* Carcinoid
SYPHILIS and multiple Charcot's joint, 525

TEACHING: *see* Education
TEAM approach: *see* Rehabilitation; Medical; Mental
TECHNIQUES: *see* Methods; Surgery; Tests
TEETH: *see also* Mouth
— edentulous patients; xerostomia:
— and serum cholesterol, 962
— and blood sugar, 966
TEMPERATURE
— caloric requirements in old age, 790
— heat production re laws of biologic senescence, 636, 736
— hypothermia in myxedema, 985
— thermography as diagnostic technique re periph. vasc. disease, 205
TENSION: *see* Mental; Stress
TERMINAL: *see* Death; Mortality
TESTIS: *see also* Hormones; Sex; Prostate
— and benign prostatic hypertrophy, 861
— androgens: *see also* Hormones
— castrated and normal male rats; skeletal calcium content, 155
— elderly male; masked active rheum. myocarditis, 1163
— elderly males in VA hospital; depression and suicide, 668
— elderly males; the problem of institutional care, 906
— function of testis; measures of, 861

— gonadal-pituitary function; normal, and in testicular failure, 861
— hormones: *see also* Hormones
— impotence; a defense mechanism, 874
— male aged offenders (parolees); marriage status, 1064
— male climacteric; problems; sex hormones, 861
— male patients transferred from VA hospital to nursing homes; initial reactions to placement, 219
— male veterans; tests for social dysfunction, 694
— males, elderly; anesthesia re surgical morbidity and mortality, 659
— males; emotional imbalance and chronic disease in, 894
— males, middle-aged; stresses, 880
— males versus females: *see also* Sex
— Man—The Mature Years and Beyond (Symposium), 844–909
— marriage status at threescore and ten, 887
— men, normal, and with osteoporosis; cortical bone porosity and thickness, 120
— normal males; Q-wave and second heart sound, 673
— normal males; radiographic density of bone, 142
— older men; severe emotional problems of, 899
— sex ratios: *see also* Sex
— testicular hormones in the mature years, 861
TESTOSTERONE: *see* Hormones; Testis
TESTS: *see also* Methods
— diagnostic; EEG activity in elderly psychiatric patients, 337
— for pancreatic exocrine insufficiency, 1097
— for social dysfunction in the elderly, 694
— immunologic, in lymphocytosis and infectious mononucleosis, 426
— immunologic: *see also* Immunology
— intradermal cancer test (ICT), 755
— invasive activity test in cancer, 755
— neglected re survey of CV case records for assessment of physician educational needs, 1025
— physiological factors of aging significant to the clinician; high blood sugar, 274–283
— psychologic: *see also* Mental
— pulmonary function: *see* Lungs and Bronchi
— Schultz-Dale test in cancer, 755
— Stilling test for color sensitivity in old age, 388
— thyroid function: *see* Thyroid
— vascular profile screening tests, 685
TETANUS: *see* Infections (diphtheria, etc.)
THERMOGRAPHY: *see* Methods (diagnostic); Vascular system (periph. vasc. disease)
THEWLIS, MALFORD W., Award: *see* American Geriatrics Society, awards
THOMPSON, WILLARD O., Award: *see* American Geriatrics Society, awards
THREESCORE AND TEN; modern challenge of, 887
THROMBOEMBOLISM; THROMBOSIS: *see* Vascular system; Brain; Heart
THYROID: *see also* Hormones
— iodine requirements in old age, 790
— myxedema coma; respiratory depression treated with ethamivan i. v.; triiodothyronine, 985
— thyroxine and cholesterol ester metabolism, 740
— triiodothyronine-I^{131} uptake, PBI and serum proteins in the elderly, 451
THYROXINE: *see* Thyroid; Hormones
TISSUES: *see also* Cells; and under various organs and systems
— aging and death as aspects of growth and development, 1044
— alive or dead?, 522
— amyloidosis re age, 514
— basic laws of biologic senescence, 638, 736, 974
— cartilage; chondroitin sulfate-A of; effect on atherosclerosis, 913
— cybernetic and crosslinkage theories of aging, 625
— free radical reactions; role in aging, 721
— hyalin bodies in brains of parkinsonian vs. elderly persons, 557
— ischemia: *see* Heart; Brain; Vascular system
— launching effect in biologic senescence, 736

— mucus and cells of bladder wall as defense mechanisms, 529
— mucus, gastric; sulfate-containing components, re peptic ulcer; vitamin A, 680
— the lens; growth and aging; effect of drugs, 930
TRANQUILIZERS: *see* Drugs; Mental
TRAUMA
— fractures: *see* Bones and Joints
— mental; psychic: *see* Mental
— of catheterization re postop. cystitis, 529
— surgical: *see* Surgery
TRIFLUPROMAZINE: *see* Drugs
TRIIODOTHYRONINE: *see* Hormones; Thyroid
TRYPSIN: *see* Enzymes
TRYPTOPHAN: *see* Protein
TUMORS: *see also* Cancer; and under organ involved
— adenoma of pancreas re diff. diagnosis of peptic ulcer and gastrojejunocolic fistula, 216
— carcinoid, and the carcinoid syndrome, 807
— carcinoid large tumor of transverse colon, 1113
— hematoma, subdural, in the aged, 380
— neoplastic vs. non-neoplastic diseases; intradermal cancer test in, 755
TYPHOID: *see* Infections (diphtheria, etc.)

ULCERS
— decubitus (bedsores): *see* Skin
— gastric, peptic, duodenal, colonic: *see* Gastrointestinal tract
— ischemic and stasis ulcers treated with gold leaf and polyethylene film, 605
— leg: *see* Skin; Legs
— peptic: *see* Gastrointestinal tract
— skin: *see* Skin
ULTRAVIOLET rays: *see* Radiation
UNDERWEIGHT: *see* Nutrition
UNITED STATES public mental hospitals; administrative opinions, 822
UREMIA: *see* Kidney; Urinary tract
URETERS: *see* Urinary tract; Kidney
URINARY TRACT: *see also* Kidney; Urine; Prostate
— bacteriuria in chronic disease hospital; methenamine mandelate, 394
— benign prostatic hypertrophy; effect of HCG and progestational agents, 861
— bladder defense mechanisms; E. coli in mucosa, 529
— cystitis, postoperative, in the elderly, 529
— infections and hyperosmolar states in the chronically ill, 648
— infection as terminal aspect of disease in old age, 1034
— mucus and cells of bladder wall as defense re cystitis, 529
— ureteral obstruction from prolapsus uteri; hydronephrosis, 1055
URINE: *see also* Urinary tract, Kidney; and under urinary constituent involved
— bacteriuria, postoperative, in the elderly, 529
— bacteriuria suppressed by methenamine mandelate in aged hospital patients, 394
— bacteriuria; cystitis: *see also* Infections; Kidney; Urinary tract
— diuresis: *see also* Drugs (diuretic); Heart
— electrolytes: *see* Electrolytes
— glucose (sugar): *see also* Carbohydrate metabolism; Diabetes
— glycosuria and phosphate excretion in aged diabetic patients; calcium, 371
— 5-HIAA excretion in the carcinoid syndrome, 807
— hormone levels in men of mature years, 861
— incontinence re hemiplegia; rehabilitation, 701
— nitrogen: *see* Nitrogen; Protein (anabolism)
UTERUS AND VAGINA: *see also* Ovary
— before birth; biologic half life, 974
— estrogenic effect (vaginal smear) in aged women treated with digitalis, 191
— gynecological geriatric survey, 191
— prolapsus uteri causing hydronephrosis, 1055

VACCINATION; VACCINES: *see* Immunology; Drugs
VAGINA; VAGINITIS: Uterus and Vagina
VARICOSITIES: *see* Vascular system (veins)

VASCULAR SYSTEM: *see also* Heart; Blood
— aortic stenosis or ventricular aneurysm in over-60 patients; open-heart surgery, 817
— arterial and venous blood gases and pH (respiratory status); relation to mental and physical function in the elderly, 924
— arterial insufficiency of the brain; long-term anticoagulant therapy, 93
— arteriosclerosis, cerebral; reaction of CBS patients to stress (ACTH re plasma corticoids), 15
— arteriosclerosis in elderly male with masked active rheum. myocarditis, 1163
— atherosclerosis and hypertension; role of free radical reactions, 721
— atherosclerosis; cholesterol ester metabolism and hormones, 740
— atherosclerosis; fat and other nutritional requirements in old age, 790
— atherosclerosis; ischemic heart disease; response to chondroitin sulfate-A, 913
— blood pressure re second heart sound and Q-II interval in old age, 673
— blood pulse volume changes in vascular disease, 685
— brain: *see also* Brain
— cardiopulmonary resuscitation in the elderly; central venous pressure monitoring, 1159

CONTENTS OF VOLUME XVII

No. 1, January 1969

The Process of Aging: Serum Glucose and Immunoreactive Insulin Levels during the Oral Glucose Tolerance Test. *Ibrahim Y. Zeytinoglu, Constantin N. Gherondache and Gregory Pincus* 1

The Delayed Effect of ACTH Administration on the Plasma Corticoid Level of Normal Elderly Persons and Patients with Chronic Brain Syndrome. *B. Grad and V. A. Kral, with the technical assistance of J. Berenson and W. J. Kappos* 15

Effect of Pentylenetetrazol (Metrazol) on Blood Cholesterol Concentration in Man. *Alice N. Bessman and Subramaniam Chandrasekar* 25

Mental Patients in Nursing Homes. I. Social Deprivation and Regression. *Bernard A. Stotsky and Joan R. Dominick* 33

Mental Patients in Nursing Homes. II. Intellectual Impairment and Physical Illness. *Bernard A. Stotsky and Joan R. Dominick* 45

Mental Patients in Nursing Homes. III. Owners, Administrators, and Nurses. *Bernard A. Stotsky and Joan R. Dominick* 56

Mental Patients in Nursing Homes. IV. Ethnic Influences. *Joan R. Dominick and Bernard A. Stotsky* 63

Electrocardiographic Variants in the Geriatric Patient. *William V. Harrison* 86

Arterial Insufficiency of the Brain: Progression Prevented by Long-Term Anticoagulant Therapy in Eleven Patients. *Arthur C. Walsh* 93

Psychosocial Aspects of Chronic Disability. *Imena A. Handy* 105

Books Received 112

News and Notices 113

The American Geriatrics Society

The 1969 Annual Meeting, Washington, D. C. *25*

Awards *26*

No. 2, February 1969

Symposium on Osteoporosis:

Nutritional Aspects of Osteoporosis. *Leo Lutwak* 115

Cortical Bone Mineral Density versus Cortical Thickness in the Diagnosis of Osteoporosis: A Roentgenologic-Densitometric Study. *H. E. Meema and Sylvia Meema* 120

Quantitative Radiographic Survey Technique for Detection of Bone Loss. *Anthony A. Albanese, A. Herbert Edelson, Edward J. Lorenze and Evelyn H. Wein* 142

Changes in Skeletal Mass and Fragility with Castration in the Rat: A Model of Osteoporosis. *Paul D. Saville* 155

Symposium on Osteoporosis—Summation and Emphasis. *G. Donald Whedon* 167

The Significance of Stature As a Clinical Measurement of Ageing. *Jan V. Dequeker, Jean P. Baeyens and Jan Claessens* 169

Retirement and Health. *Carol Ryser and Alan Sheldon* 180

A Geriatric Gynecological Survey. *Witold V. Turkel, Martin L. Stone and E. Edward Napp* 191

Fractures of the Neck of the Femur in the Aged: Review of 224 Consecutive Cases. *D. Naden and L. Denbesten* 198

Peripheral Vascular Disease in the Aged: Modern Concepts and Diagnostic Techniques. *M. L. Riccitelli* 205
Examination of Geriatric Patients for Carpal Tunnel Syndrome: Results of Surgical Therapy. *Francis H. Stern* 213
Recurrent Gastrojejunocolic Fistula Treated by Ileosigmoidostomy. *Thomas C. Case* 216
Initial Reactions to Nursing Home Placement. *Margaret W. Linn and Lee Gurel* 219
News and Notices 224
The American Geriatrics Society
Awards *22*
The 1969 Annual Meeting, Washington, D. C. *21*

No. 3, March 1969

Seminar: Geriatrics and the Medical School Curriculum

Call to Order and Introduction of Speaker. *Dr. Edward J. Lorenze* 229
Address: "The Role of Medical Education in Gerontology." *Dr. Alfred H. Lawton* 230
Closing Commentary. *Dr. Edward L. Bortz* 235
Call to Order and Introduction of Speaker. *Dr. Paul I. Robinson* 237
Summary of 1967 Seminar and Goals for 1968 Seminar. *Dr. George G. Reader* 238
Group Discussion 243
Introduction of Speaker. *Dr. Samuel P. Martin* 253
Address: "Some Problems of Curricular Innovation: Reaction, Response and Renewal." *Dr. Peter V. Lee* 254
Discussion of Dr. Lee's Paper. *Dr. James E. C. Walker* 262
Group Discussion 264
Call to Order and Introduction of Speaker. *Dr. John Deitrick* 272
Address: "Physiological Factors of Aging Significant to the Clinician." *Dr. Reubin Andres* 274
Discussion of Dr. Andres' Paper. *Dr. Hans H. Zinsser* 278
Group Discussion 279
Introduction of Speaker. *Dr. James A. Campbell* 283
Address: "Sociological Factors of Aging Significant to the Clinician." *Dr. Ethel Shanas* 284
Discussion of Dr. Shanas' Paper. *Dr. Leroy E. Duncan, Jr.* 289
Group Discussion 292
Call to Order and Introduction of Speaker. *Dr. George T. Harrell* 298
Address: "One Medical School's Approach to Teaching Problems of the Aging." *Dr. Ewald W. Busse* 299
Discussion of Dr. Busse's Paper. *Dr. Thomas H. McGavack* 304
Discussion of Dr. Busse's Paper. *Dr. George T. Harrell* 309
Group Discussion 312
Conference Summary and Interpretation. *Dr. George G. Reader* 315
Sociological Perspectives. *Dr. Gordon Streib* 320
Group Discussion 325
Closing Remarks. *Dr. Edward J. Lorenze* 328
Nominations for Officers and Directors, American Geriatrics Society 329
News and Notices 330
The American Geriatrics Society
Awards *27*
The 1969 Annual Meeting, Washington, D. C. *21*

No. 4, April 1969

Generalized Sharp Activity in the Electroencephalogram of Middle-Aged and Elderly Psychiatric Patients. *H. F. Müller* 337
Mental Health Consultation and Education in Nursing Homes. *Fred H. Frankel and Eleanor Clark* 360
Colonic Diverticulosis in the Aged. *James W. Brown* 366
Renal Tubular Clearance and Reabsorption of Phosphates in Aged Diabetic Patients. *Carlo Mazzi and Paolo Carullo* 371
Chronic Subdural Haematoma in the Aged. *S. Lavy and Y. Herishianu* 380
The Geriatric Center of Pardes-Hana in Israel. *L. Goldschmidt* 384
Colour Sensitivity in Old Age. *L. M. Dalderup and M. L. C. Friedrichs* 388
Impact of Medicare upon a Private Practice of Ophthalmology. *M. P. S. Spearman* 391
Suppression of Bacteriuria by Methenamine Mandelate in Aged Hospital Patients with Chronic Disease. *Frederick B. Bohensky* 394
Flurazepam versus Amobarbital As a Sedative-Hypnotic for Geriatric Patients: Double-Blind Study. *Seymour Fisher and Paul Gal* 397
The Diagnostic Significance of Intestinal Gas. *Saul J. Grosberg* 400
Procaine Amide-Induced Leukopenia. *Vicente W. Kwan* 404
A Philosophy for Geriatric Research. *Harry P. Loomer* 406
Effects of Pipradrol Hydrochloride on Geriatric Patients. *Ibrahim Turek, Albert A. Kurland, Kay Y. Ota and Thomas E. Hanlon* 408
Triflupromazine versus Pentylenetetrazol-Nicotinic Acid for Treatment of Chronic Brain Syndrome on a General-Hospital Psychiatric Service. *Bruce L. Danto* 414
Effects of Routine Vitamin Supplementation in the Aged. *Alan Hecht* 421
Geriatric Infectious Mononucleosis: Report of a Case with Epstein-Barr Virus Antibodies. *Richard L. Golden* 426
The Centenarians: Some Findings and Concepts Regarding the Aged. *Joseph Lerner* 429
The American Geriatrics Society
The 1969 Annual Meeting, Washington, D. C. *28*
Awards *36*

No. 5, May 1969

Health Maintenance in Older Adults. *Josef P. Hrachovec* 433
Serum Proteins, Protein-Bound Iodine and Triiodothyronine Uptake in the Elderly. *H. Meindok and W. M. Franks* 451
Issues in Planning for Geriatric Services. *Samuel Levey and Bernard A. Stotsky* 459
Clinical Aspects of Depression in a Home for the Aged. *Malcolm B. Bowers, Jr.* 469
Prevention of Senile and Presenile Dementia by Bishydroxycoumarin (Dicumarol) Therapy. *Arthur C. Walsh* 477
